## Transportation Designer

Place of Birth ISRAEL  
Date of Birth 30/05/1993

### ABOUT ME

The passion for art and design was an ever-present part of me and the atmosphere at the artistic home I grew up in.

The love for the sea was always with me, and over the years these passions were to become one.

four years in the yachting industry and three years of 100% Italian design studying gave me the opportunity to accumulate a great deal of experience and knowledge.

The use and development of technology, abilities, and creative skills are part of it, but also the human side - I recognize the importance of teamwork, taking responsibility for guiding and managing operations, learning how to deal with stressful situations, and how to develop an idea and creativity to a final proposal.
